Question: 1

INSTRUCTOR

- A. dictator
- B. pupil
- C. survivor
- D. teacher

Answer: D

Explanation:

A teacher provides instruction and information to an individual or group of individuals. An instructor functions in the same capacity, that is, in the practice of teaching.

Question: 2

INSTANTLY

- A. definitely
- B. eventually
- C. immediately
- D. reluctantly

Answer: C

Explanation:

To say something was done instantly means that it was done immediately and without hesitation.

Question: 3

GIGANTIC

- A. harsh
- B. huge
- C. scary
- D. small

Answer: B

Explanation:

Something that is described as gigantic is extremely large, or huge, in size.

Question: 4

COSTLY

- A. attractive
- B. cheap
- C. expensive
- D. rare

Answer: C

Explanation:

Something that is costly is expensive because it costs a lot of money.

Question: 5

FREQUENTLY

- A. difficulty
- B. easy
- C. freely
- D. often

Answer: D

Explanation:

To say that something is done frequently implies that it is done regularly or often.

Question: 6

OBSERVED

- A. hunted
- B. scared
- C. sold
- D. watched

Answer: D

Explanation:

Something that is being observed is being watched. Binoculars are used to see things more clearly, so it makes sense that the man would be observing or watching eagles with binoculars.

Question: 7

PURCHASED

- A. bargained
- B. bought
- C. complained
- D. sold

Answer: B

Explanation:

Saying that somebody purchased something and saying they bought something conveys the same meaning.

Question: 8

Harlan plans to make stew for a large group. The recipe he uses requires 150 carrots. He knows that he can buy large bags of carrots for \$3.75 each. What additional information does Harlan need to find the amount of money the carrots will cost for his stew?

- A. The amounts of other vegetables he will need for the stew
- B. The number of people he expects to eat the stew
- C. The price each person attending the event paid
- D. The number of carrots in a large bag of carrots

Answer: D

Explanation:

Since Harlan knows the cost of each bag of carrots, and also how many total carrots he needs, he also needs to know the number of carrots in each bag to find the number of bags he needs to buy. Then, he can multiply the number of bags by the price to find the amount of money the carrots for his stew will cost.

Question: 9

What is the value of the digit 5 in the number 3,456,789?

- A. Fifty thousand
- B. Five thousand
- C. Five-hundred thousand
- D. Five million

Answer: A

Explanation:

The digit 5 is in the 5th column, which is the ten thousands column. Therefore, the digit represents the value 50,000.

Question: 10

What is the 14th number in the pattern shown below? 100, 200, 300, 400, ...

- A. 1,200
- B. 1,300
- C. 1,400
- D. 1,500

Answer: C

Explanation:

The value of each number in the pattern is a multiple of 100. Therefore, the 14th number represents the value of the product of 14 and 100; $14 \times 100 = 1400$.
